Violation of these rules may
result in citations and
immediate confiscation of
permit.

Utah LCV Winter Operations

No carrier shall operate an LCV triple trailer combination, with a combined trailer length in excess of 81 feet, when the following conditions exist:

Wind: In excess of 45 mph for empties, 50 mph when loaded.

Snow & Ice: Any accumulation on the roadway.

Visibility: Less than 1,000 feet.

When any of the listed conditions exist an operator may choose one of the following options:

- ♦ Drop the third trailer at a safe and appropriate location (not on a highway or interstate) and proceed with caution.
- ♦ Cease operations until conditions improve.

Utah Chain Requirement

UCA 41-6a-1636(c) -Tire chains of reasonable proportions on a vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

Vehicles likely to encounter conditions requiring chains must carry sets for at least one driving axle.
